

The image is a composite of three parts. On the left is a modern lounge area with a white sofa, blue cushions, a floor lamp, and a whiteboard. In the center is a vertical yellow bar containing text. On the right is a long, bright hallway with glass walls, black frames, and industrial-style pendant lights.

## ABOUT US

EduNextG group of companies is Technology driven Company catering to the specific requirements to the Educational Institutions across India. Founded in 2018, EduNextG group of companies is a fast growing educational enterprise focusing on the present and future educational barriers and evolving with innovative solutions.

“The Company has a strong vision of improving the teaching learning experiences in educational institutions. Our mission is to help educational institutions in exploiting latest technology for effective knowledge delivery and make the path of studying and teaching a pleasant experience.”

EduNextG group of companies is at the forefront in revolutionizing the education system across India. Everyday our innovative products and solutions are transforming the lives of students.

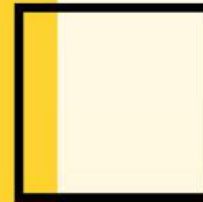

Our Products are categorized into several segments viz. Smart Class Solution, Digital Podium, Digital Notice Board, ERP Solution, Stationery Solutions, Uniform Solutions, Furniture Solutions, Surveillance Solutions etc.

# DIGITAL CLASSROOM

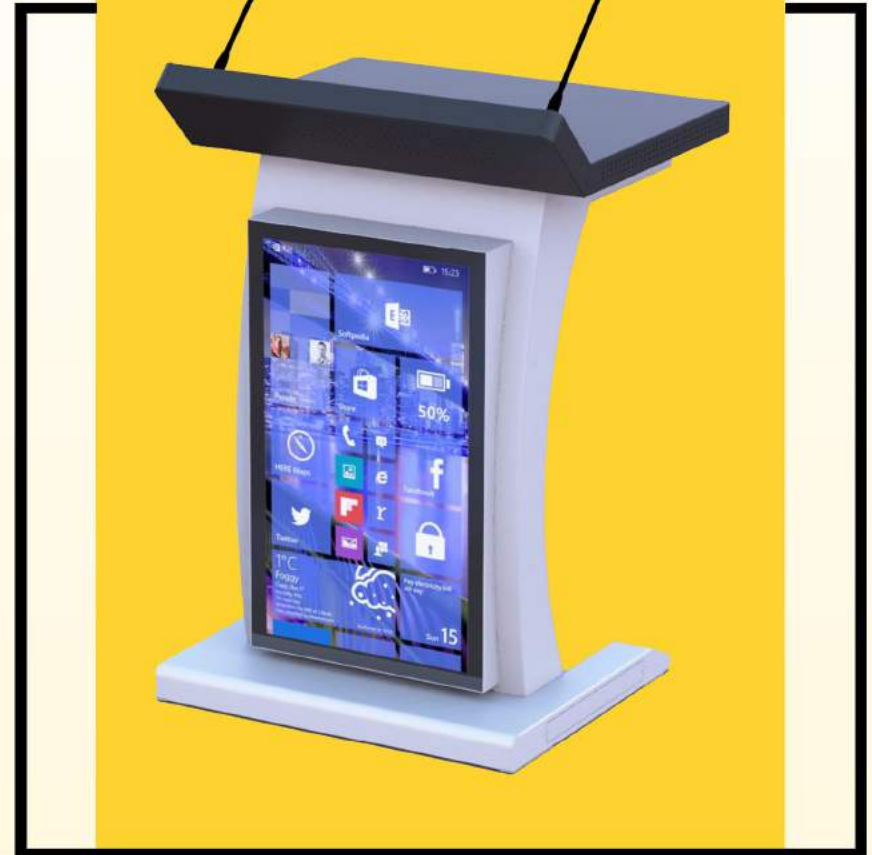

- Digital learning is a type of learning which is accompanied by technology or by instructional practice that makes effective use of technology.
- Interactive learning is the key to engage student in the digital classroom. It allows the teacher and students to use technology in a collaborative way.
- We believe that teaching should make a student enthusiast about the subject and we are confident that these digital training aids will be very much effective in achieving the objectives of Education in terms of providing knowledge, skill development and will inculcate the attitude of the students towards continuous and lifelong learning.
- It encompasses the application of a wide spectrum of practices including: blended and virtual learning... classroom technologies. E-textbooks. Learning analytics.

# Digital Podium

- Digital classrooms today come attached with touch screen computers, document cameras, Blu-ray players, mic – amplifier – speaker systems, interactive whiteboards and many other complimenting devices as per the needs of the venue.
- As the name suggests digital means “technology” and the podium means a lecture stand; the amalgamation of both can transform the learning into mind-boggling yet interesting session.
- A podium is a raised platform on which a speaker stands during a presentation.
- Digital podiums are complete smart solutions for any classroom, training room, conference room, board room or meeting venue.
- With conveniently integrated lecture delivery tools, it benefits teachers and students with a platform for better message delivery.

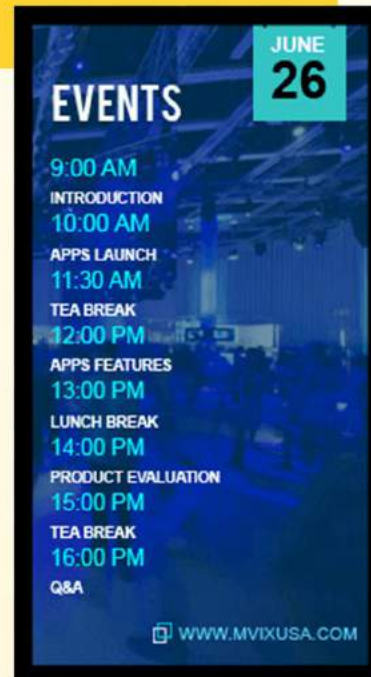

- Include a wide variety of multimedia in display.
- Nowadays conveying messages to huge gathering / audience/ spectators have become easy due to use of these notice boards, which are now widely being used by schools & organizations.
- The Digital Notice Board is an exciting new innovative way to disseminate information amongst your customers, staff, visitors or students.
- As changing of notices manually everyday is a difficult and time consuming process, digital notice board comes here as a saviour.

# Digital Notice Board

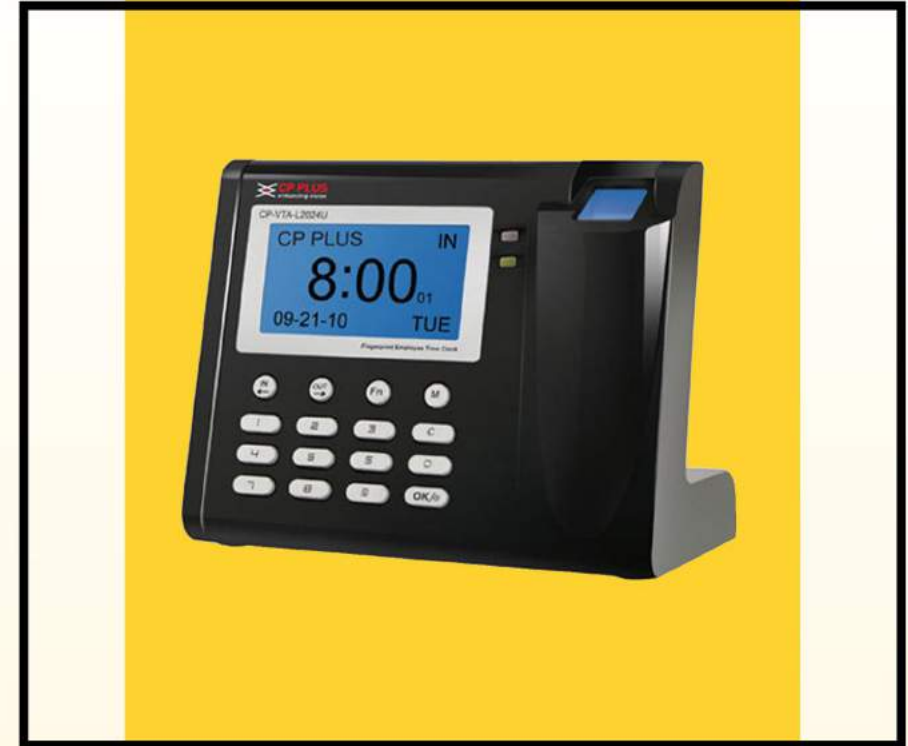

The Digital Notice Board supports a wide range of formats as standard, including:

- Microsoft PowerPoint
- Flash
- Web pages
- Digital Video
- RSS Feeds
- Live TV/DVD
- Images, Web Streams and Audio

# DIGITAL ATTENDANCE SYSTEM

- RFID Card Based Time Attendance System includes eco-friendly high-end biometric time attendance system which can also be customised in multi-linguistic option.
- For a registered student, the confirmation is displayed on an LCD screen; else a rejection message is shown that denies the attendance.
- The attendance status for entire students can be later obtained from the system by pressing the concerned button. This saves a lot of time and effort compared to manual attendance.

- Radio frequency technology is used in many applications. RFID tags are of two types –

1) Passive Tags and 2) Active Tags.

Passive tags contain 13 digit number tag inbuilt in it, whereas active tag is read/write tag i.e. one can read or write from the tag and write. This project uses passive tag.

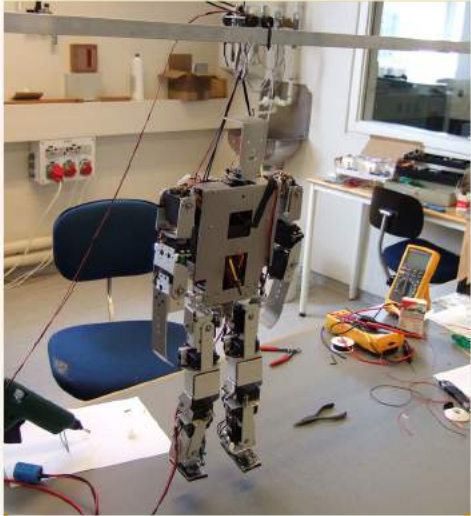

# CONFERENCE ROOM

- Video Conferencing is being used in almost all the industries which not only saves time but also money too.
- There are best five conference room solutions. All these are designed to help the users to communicate with their colleagues in real time without any barrier of location.
  - Skype
  - Any meeting room
  - Go To Meeting
  - Ez Talks Conference Room Solutions
  - Zoom rooms
- One has to select the correct type of solutions which will suit its requirement.
- It is affordable and comes with many improved features to make the conference seamless and more effective.

# LAB SOLUTIONS

## Robotic lab

Advanced laboratory robotics can be used for complete automation of the process of science, as in the Robot Scientist project. Laboratory robotics is the act of using robots in biology or chemistry labs.

## Computer lab

Computer labs are typically provided by libraries to the public, by academic institutions to students who attend the institution, or by other institutions to the public or to people affiliated with that institution. Computers in the labs are typically equipped with internet access, while scanners and printers may augment the lab setup. Computers in the labs are typically arranged in rows, so that every workstation has a similar view of one end of the room to facilitate lectures or presentations.

## Science lab

Digital Science Labs give students all the tools they need in their pursuit of science. Students can measure their own data from interactive experiment videos.

## Maths lab

The mathematics laboratory is a place where anybody can experiment and explore patterns and ideas. It is a place where one can find a collection of games, puzzles, and other teaching and learning material. The maths lab provides an opportunity for the students to discover mathematics in an innovative way.

# STUDENT ID CARD

- The card is recognized globally.
- Student ID cards serve a variety of purposes outside for photo identification, and can provide access to such amenities as borrowing books at the school library, attending school events, receiving discounts at local stores and movie theatres, and much more.
- School ID cards are used to identify students & staff at grade schools through universities, increasing campus security.

# Surveillance System

- They are often connected to a recording device or IP network, and may be watched by a security guard.
- Streamax in- vehicle surveillance system is designed especially for education sector to monitor its transportation services and students.
- Once the student is picked up from their location, it is the school's responsibility to safeguard its students.
- Streamax school bus system can give you the solutions which will help you to track your bus as well as your students in second's interval.

# SCHOOL UNIFORM

- Uniform carries the brand image of the concerned school.
- It differentiates one school from other or one institute from other.
- Uniforms also provide social security to the students.

• A School Management System is an all-round ERP system for Educational Institutions like Schools and Colleges.

• System (School ERP) aims at easing administrative hassles and enhancing efficiency and productivity and to manage various school activities.

• The software takes care of every functional aspect of the school with utmost ease.

• The modules that are covered in a school management system are Student enrolment and management, Teacher Management, Attendance, Subject, Class Routine, Study Material /Notes, Syllabus, Exam Marks, Notice board, Accounting and Library.

SYSTEM

# Networking Solution

The School Solutions Network strengthens K-12 classes by leveraging innovative technology and education, expert counsel and community resources.

These networks deliver the scale, performance, security, and agility required to connect digital traffic to and fro the classroom, study areas, school buildings, cloud-based applications, and the Internet on a non-stop basis.

The School Solutions Network merges the power of communities with the technical expertise of Status Solutions in order to holistically identify and address each school's unique needs.

## School Desk Bench

---

- It's a modern type of furniture facilitating students comfort in class and thereby enhancing attention of students.
- The most common classroom desks are made of either solid plastic or particleboard covered with a laminate or melamine finish.

# SPEECH TABLE

- It is a speech delivery platform.
- This is used generally by a higher authority or staff to deliver messages or lectures to their students.
- It is a kind of a podium but may or may not be digital.

A vibrant collection of school stationery items. In the foreground, several spiral-bound notebooks with colorful covers (green, blue, yellow) are stacked. To the right, a row of colorful pencils (purple, blue, green, yellow, orange, pink) is laid out. In the background, there are two containers filled with pens and pencils, a stack of colorful sticky notes, and a silver stapler. The entire scene is set against a light-colored surface.

# School Stationery

- Stationery is a mass noun referring to commercially manufactured writing materials, including cut paper, envelopes, writing implements, continuous form paper, and other office supplies.
- School stationeries are items which are given in schools to distribute among students for their studies.
  - School stationeries includes copies and notebooks too which are used for jotting down notes.

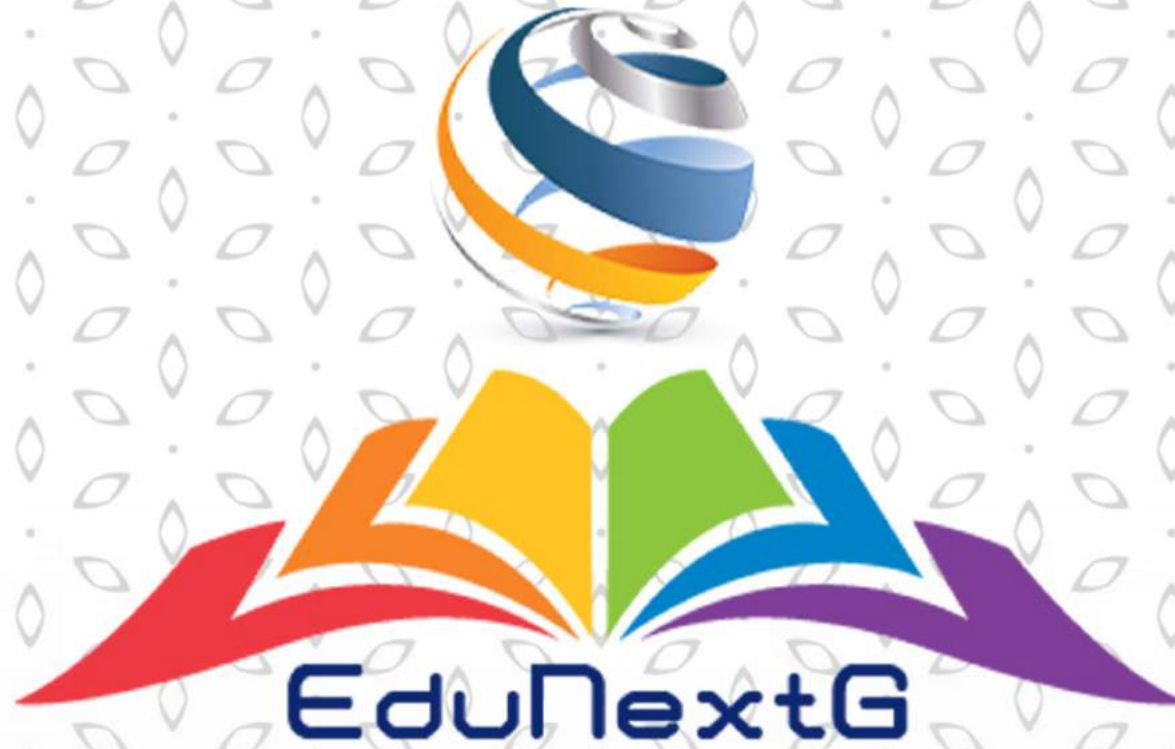

# IT Sales & Services

- The Educational Services sector comprises establishments that provide instruction and training in a wide variety of subjects.
  - Our Education IT Solutions deliver real value for educators and administrators.
- We are committed to connect schools and classrooms with best in class service providers, who share our passions for education.
